EXPERIENCE

Leo Szac, MDS LLC

Automation Engineer

Upwork Inc. - Remote

January 9, 2025 - April 27 2025

- Developed and implemented automation workflows using Make.com to support the company's personalized book generation system.
- My role focused on building end-to-end automation processes that dynamically generate customized books, including maintaining image consistency across outputs.
- I worked on integrating different tools and services to streamline content generation, improve efficiency, and ensure a smooth, scalable production workflow.

DPWH District Engineering Office

Information and Communication Technology Intern

Agusan Del Norte, Butuan City

February 2, 2026 - March 20, 2026

- Provided technical support for office printers, including setup, maintenance, and resolving printing issues across different departments.
- Assisted in basic hardware and software troubleshooting for office computers, including network cable checks and general IT maintenance tasks.

Safer Road Rescue (USA Base)

Agent & Dispatch

Agusan Del Norte, Butuan City

April 8, 2026 - September 27, 2026

- Provided roadside assistance support by handling customer calls, gathering service and location details, coordinating with nearby service providers, and dispatching vendors for towing and other roadside assistance needs.
